

Equum Medical:

Your Partner for Comprehensive Virtual Care Services

Transforming Patient Safety with Virtual Sitting

Equum Medical, a Platinum sponsor of the AvaSure Symposium, is your strategic partner in virtual care services. We've collaborated with AvaSure to deliver over **1 million hours of patient observation** through our Virtual Sitter services to date, and continue to grow in care quality!

Clinical Benefits

Reduction of adverse events:

- Falls
- IV pulls
- Elopements
- Staff safety and violence prevention

Operational Efficiencies

- Length of stay reduction
- Return of clinical staff to floor
- Improved staff collaboration
- Optimized patient flow through care continuum
- Infrastructure hosting

Financial Impact

- Workforce efficiency
- Reduced readmission rate

"Our Virtual Sitter Program has set new standards for patient safety and operational efficiency, ensuring that hospitals can provide high-quality care while optimizing resources."

Dr. Corey Scurlock,
CEO & Founder

*"By partnering with **AvaSure**, we've created a robust virtual sitting program that not only keeps patients safe but also supports our healthcare professionals in delivering the best care possible."*

Kristen Lawton, MSN, RN,
Chief Nursing Officer

Beyond Sitting:

Comprehensive Virtual Care Solutions for the Smart Hospital

Our suite of virtual care services are designed to power digitally enabled workforce ambitions from ED to Discharge including Multi-Specialty, Critical Care, Nursing, Sitter and Telemetry.

**Specialist
Consultation 24/7**

**Admit, Discharge,
and Round**

**Build Clinical
Collaboration**

**Exceptional
Bedside Care**

Critical Care

Our specialized tele-critical care services deliver expert support to hospitals in managing high-acuity patients around the clock in ED and ICU environments. Available 24/7 Equum Provider Specialists enhance patient outcomes by integrating seamlessly with existing hospital workflows.

Virtual Nursing

Remote nursing professionals support bedside teams, enhancing patient care, reducing workload, and increasing staff satisfaction. Our experienced nurses help optimize patient flow and support continuous, high-quality care delivery.

Multi-Specialty Care

Address critical gaps in specialties such as cardiology, nephrology, pulmonology and infectious disease through telehealth-enabled services. Our specialists are available 24/7 to ensure the right care is available locally, anytime.
